

USA INC - The creation of a fake government

by AntiCorruption Society.com

"If the American People ever allow private banks to control the issue of their money the banks and corporations that will grow up around them will deprive the people of their property until their children will wake up homeless . . . "

Thomas Jefferson

Following is a timeline demonstrating when and how a private central banking cartel got control of the people and the assets of the United States.

Each fact is supported by official sources.

Source Documents (SD) are available at www.anticorruptionsociety.com under the tab "SOURCE DOCUMENTS".

Today - as has been demonstrated - the United States is just a corporate franchised network represented by their all caps names, such as STATE OF OHIO. .

Corporate "statutes" have replaced laws.

A corporate "statute" is a rule of a corporation given the force of law by the consent of the parties. This "consent" generally requires a signed contract.

From Judge Dale, author of the Great American Adventure (pg 102):

http://anticorruptionsociety.files.wordpress.com/2013/11/the-great-american-adventure-sm-book-format_pdf.pdf

"The federal and state governments are not real. They are privately owned corporations called governments . . . and the law is nothing more than their corporate regulations called statutes."

As corporations have no souls to save nor bodies to incarcerate . . . they are just dead legal structures.

A dead legal structure cannot represent living people nor obligate living people to laws.

Therefore a corporation cannot be a government.

It can only be a legal structure for commercial contracts, which is all the so-called UNITED STATES government franchise network is!

From Judge Dale's The Great American Adventure (pg 10):

http://anticorruptionsociety.files.wordpress.com/2013/11/the-great-american-adventure-sm-book-format_pdf.pdf

"All of this deception is compounded by the refusal of ordinary Americans to realize, know or understand that it is this secrecy and duplicity of privately owned corporations, being surreptitiously [falsely] portrayed as American agencies and government . . . that have come together to fleece the American people . . ."
